UNDERSTANDING OUR FAITH

ב"ה

ONE THROUGH OUR DIFFERENCES

The Jewish People are like a single body composed of many organs. Each organ is different; yet, they are designed to work together. For one Jew to fight another is like the one hand attacking the other.

(Derech Mitzvosecha, Mitzvas Ahavas Yisrael)

It is true that G-d has created us all with differences. But these differences do not contradict our essential unity. Quite the opposite! We are created different because we are interdependent. We are meant to specialize and work together. Each person provides a necessary ingredient in the recipe for Moshiach. Without even one ingredient, the recipe for the World to Come is incomplete.

Likkutei Torah Nitzavim pg. 44a
