ESSENCE OF MOSHIACH

ב"ה

SUMMARY

The Messianic Redemption will progress in stages:

1. Moshiach will create the optimal environment by helping each nation and individual find his proper place and role in the world. This will create an environment of peace, harmony, and global prosperity.

2. In this environment, man will develop his abilities to the fullest and learn how to act with the utmost efficiency. Moshiach will teach all of mankind, flooding the world with both mundane and Divine wisdom, until we come to understand that all are really unified.

3. Through this new understanding of reality, what was once impossible will become commonplace. Moshiach will work great miracles; yet, they will all be seen as natural.

4. As we begin to interact with the world in new ways based on a proper understanding of reality, we will perceive the G-dliness in every experience. What was once merely a belief will now be something that we experience directly, as plain as day.

5. All of this flows from the yechidah, the inner Divine essence of reality. Moshiach is a process of revealing, becoming more aware of, and living more in line with this essence.
